## **Error pane of Celebrate Scouting stamps found**

#### By Jay Bigalke

A pane of 20 of the United States nondenominated (45¢) Celebrate Scouting commemorative forever stamp (Scott 4691) has been found with all front die cuts missing.

The error pane was purchased at a Michigan post office.

A pair of the stamps, digitally

cropped from the pane, is pictured on this page.

The full pane of 20 stamps, devoid of the front die cuts that normally separate the individual stamps, is shown on page 18.

The Celebrate Scouting stamp was issued June 9.

The error pane was purchased by stamp collector Fred Un-

derwood of Virginia. He bought the pane of stamps while on vacation in Michigan.

Underwood indicated that the office had additional similar sheets available, but noted they were apparently damaged when attempts were made to remove stamps from the pane.

Underwood sent the error pane to Linn's Stamp

## **Celebrate Scouting error found**

Continued from page 1 used stamps from a pane. The error pane bears plate No. S111111. The "S" prefix refers to Sennett Security Products.

The Celebrate Scouting stamp

was printed at Sennett's Banknote Corporation of America facility in North Carolina.

The large press rolls of the Celebrate Scouting stamps were then finished into post office panes of 20 in Fredericksburg, Va.

Scott catalog editor Charles Snee examined the discovery pane and confirmed that it is completely without die cuts.

The new error will be listed in Vol. 1 of the 2014 Scott Standard Postage Stamp Catalogue, which is scheduled to be published in April 2013. ■
